N.W.:2.9 KGs
SIZE:10x10x25 CM
Light source : E12 /E14 bulbs

Selenite pendant-polyhedron
N.W.:4.65 KGs
SIZE: 12x12x30 CM
Light source : E12 /E14 bulbs

Small pendant series

Selenite Pendant-Crystal planets

N.W. : 6.8 KGs ;

SIZE : 35x35x36 CM ; (Only lamp body)

Light source : E12/E14 LED BULBS

Finish : Sand Nickel & Translucent white

The design of this product is inspired by the spiky crystal planet.

The dazzling light is refracted through the crystal and softly emitted, showing a magnificent effect.

For safety reasons, after 120 hours of cold and hot cycle test, the maximum temperature is 70 ° C and the minimum temperature is - 30 ° C. the crystal is still firmly fixed on the hardware frame.

You can choose different colors of light bulbs according to your preferences. The crystal will reflect different light depending on the color of the light source.

Selenite Mirror-Round

N.W. : 46 KGs ;

SIZE : 100x100x25 CM ;

Light source : LED STRIP ;

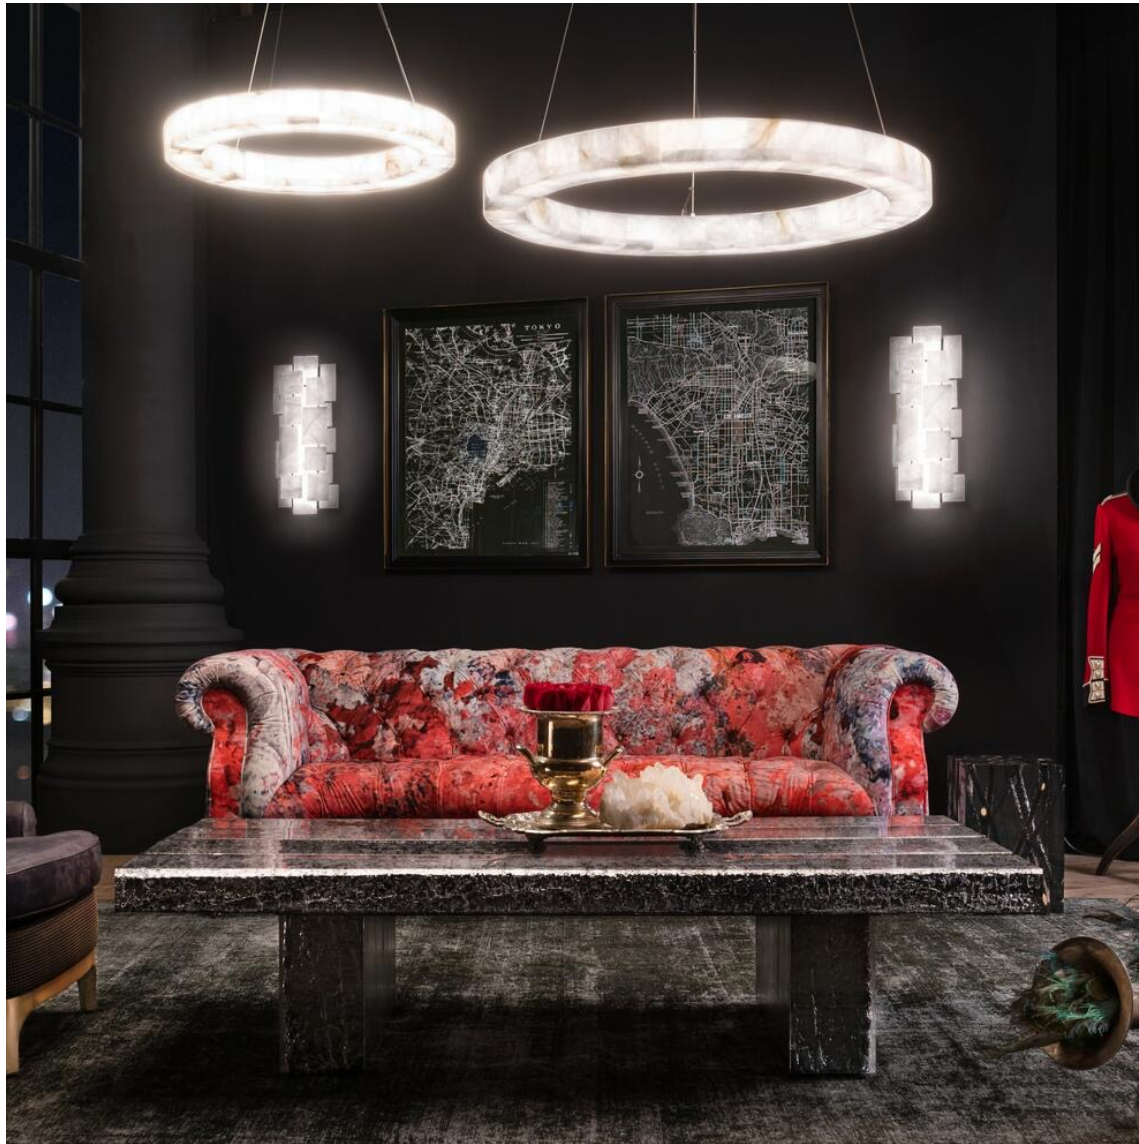

The design inspiration of this product comes from natural crystal ore.

Under the light, the light passes through the crystal stone and refracts to show a dreamlike light.

This product uses natural stone crystal combination, and uses special glue to fix the stone on the hardware base.

For safety reasons, after 120 hours of cold and hot cycle test, the maximum temperature is 70 ° C and the minimum temperature is - 30 ° C. the crystal is still firmly fixed on the hardware frame.

The design has supporting chandeliers, wall lamps, table lamps and floor lamps, forming a complete lighting series.

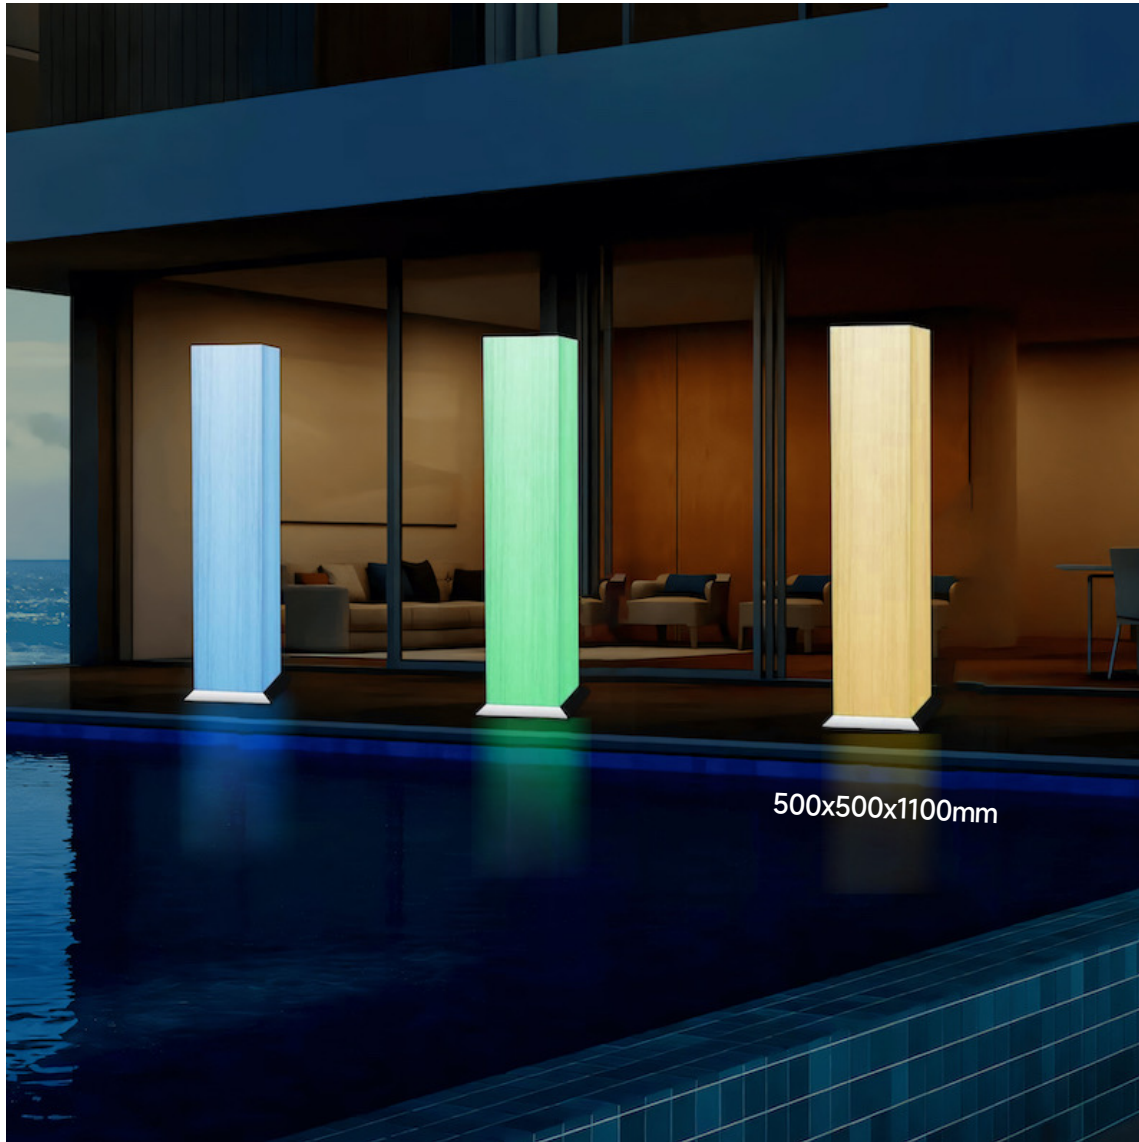

Made from natural calcite crystals, our lighting collection taps into calcite's mystical properties, known to boost mental energy and aid in moving forward.

Named after the Greek goddess of the moon, Selenite, the crystalline form of Gypsum, is renowned for its soft, moonlight-like pearlescent glow.

The LED Square Pillar Lamp can float, making it suitable for pool lighting, garden illumination, pathway lighting, and deck enhancement. It creates a tranquil and visually stunning atmosphere.

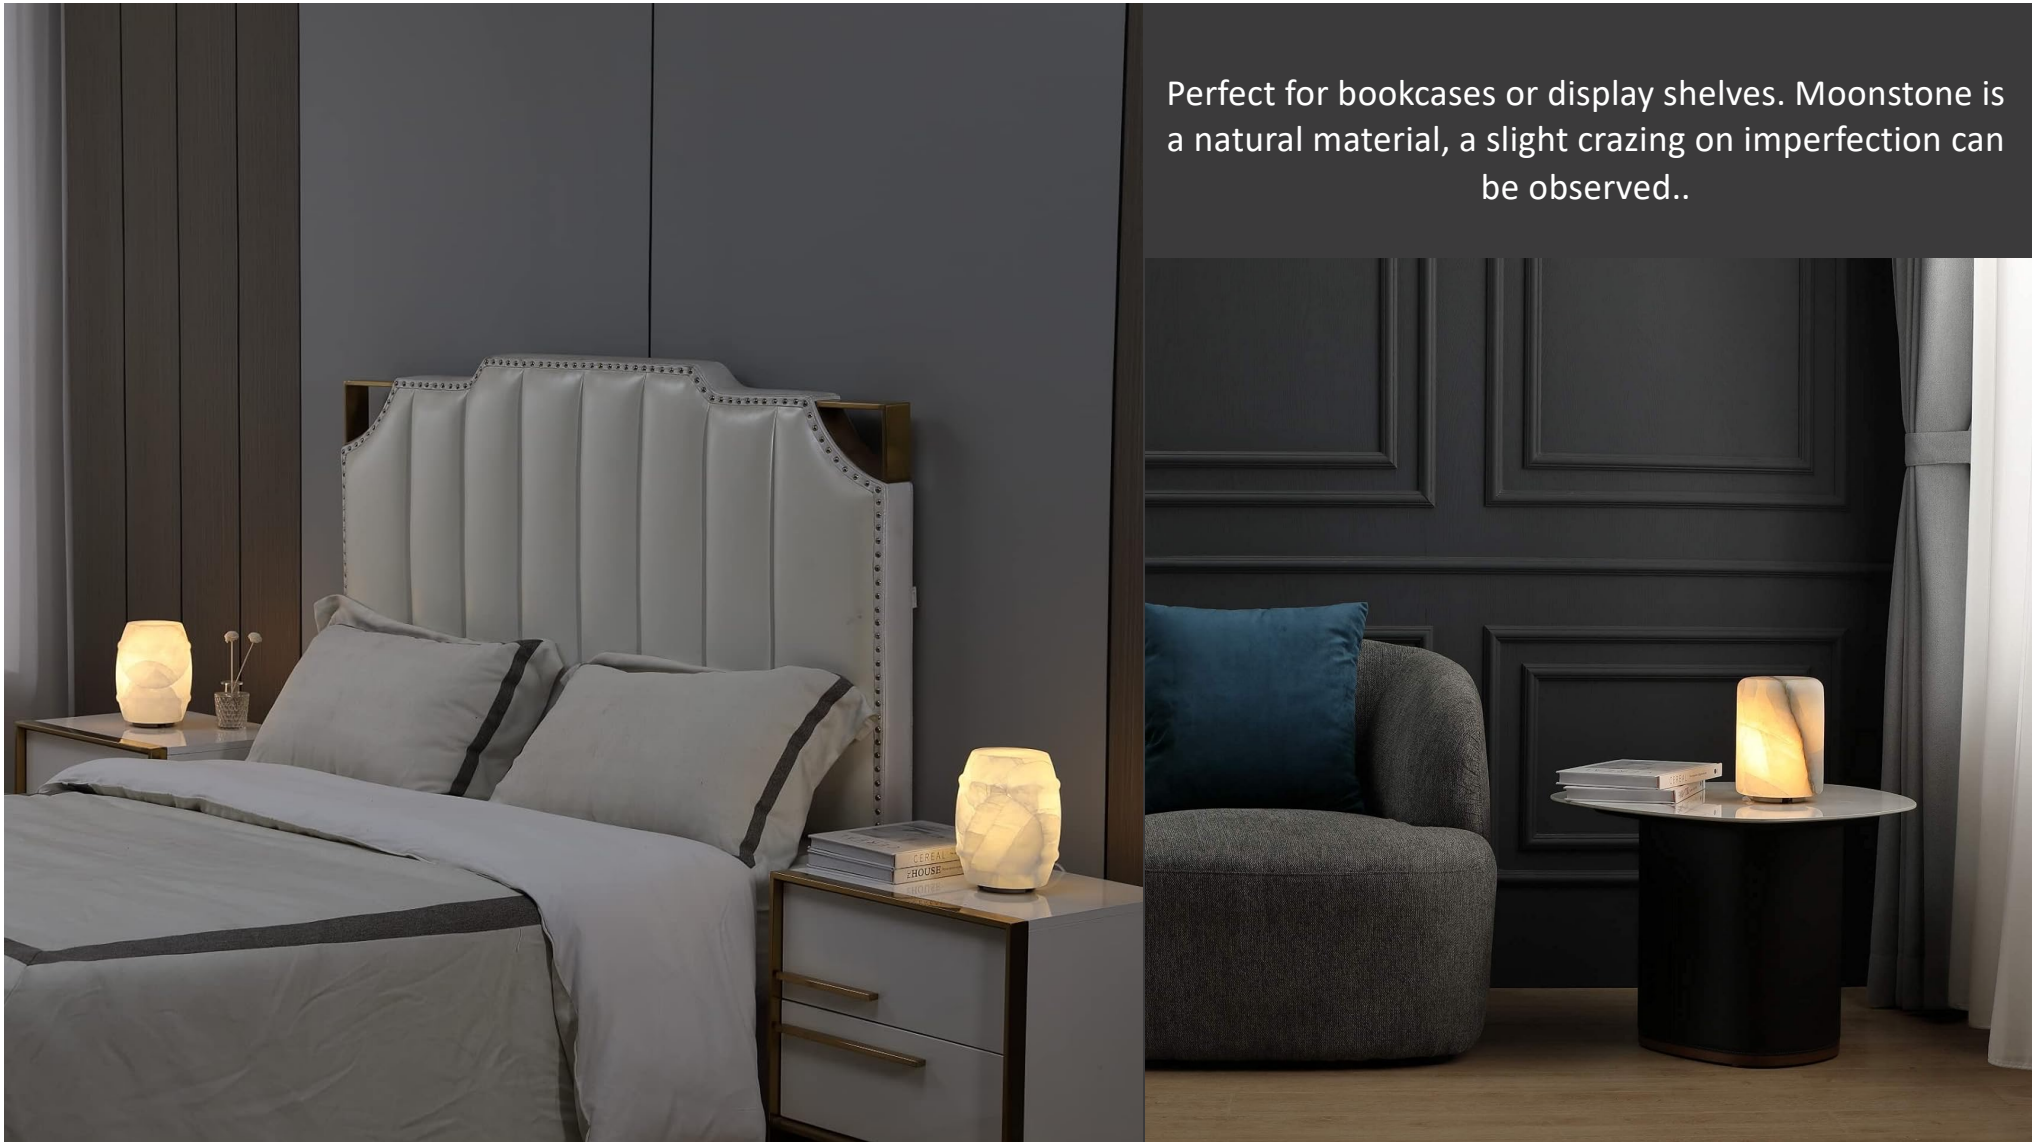

Designed using very simple shapes with almost no visible frame, the Frozen floor lamp captures the enchanting beauty, romance and magic of one of Earth's oldest natural materials..

Perfect for bookcases or display shelves. Moonstone is a natural material, a slight crazing or imperfection can be observed..

The space is designed for leisure, offering room for artistic context.

Shimmer bar and wine cabinets suitable for your ballroom events, cocktail parties, restaurants, and bars.
